

Hazardous Transportation Plan

Big Foot Union High School (BFHS) lies within the Village of Walworth. Due to unusually hazardous conditions in certain areas, the school district deems it necessary to provide transportation to some children residing less than two miles from the school.

It is our opinion, for the following reasons listed below, the Village of Walworth and surrounding areas (within two miles) contain several hazardous areas for foot travel.

1. The Village of Walworth and surrounding areas (within two miles) contains roads leading to BFHS that lack sidewalks of any kind, which forces foot travel on the street.
2. There are numerous residences located north of the railroad tracks that require students to cross to attend BFHS.
3. There are major highways that intersect in the Village of Walworth (Hwy 14, Hwy 67, Hwy B) that is dangerous for pupil foot travel. They should not be crossing due to highways having speed limits of 35mph or higher.

It is for these reasons that the Big Foot Union High School Board of Education has determined that sufficient hazardous conditions exist which would represent a clear danger for pupils walking safely to school.

Recognizing that the school district has an obligation to provide a plan for providing safe transportation, the Big Foot Union High School Board of Education offers bus transportation to pupils within the school district who must cross the railroad tracks, walk to school on streets that lack sidewalks, or cross highways with potentially high speed limits. Bus stops are reviewed by law enforcement.
